### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: None of the prior art, either alone or in combination suggest the instant invention. Applicants' arguments of August 14, 2009 were persuasive in that the references as combined in the final rejection of May 14, 2009 would make Akira inoperable because thin chips bent downward would run a high risk of cracking or breaking if moved laterally.

The newly cited Japanes reference, JP2000-353710 does not shows vacuum to bend both the tape and the chip in Figs. 3, 5, 9, and 10, but does not show the starting position to be a flat plane in which the sheet is abutted against the suction surface because the suction surface is curved. Figs. 1, 7, 8, and 12 do show the suction surface to be flat but do not show the chip to bend when the tape is bent.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark A. Osele whose telephone number is 571-272-1235. The examiner can normally be reached on M-F 10:00-6:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Philip Tucker can be reached on 571-272-1095. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
